

XB16 Air Conditioner

Standard efficiency, premium comfort that lasts

Long-lasting reliability and durability make the XB16 a smart investment in comfort and efficiency. With up to a 16 SEER rating, it can overcome even the most stifling days with energy-conscious operation. The XB16 is the air conditioning unit you will want to rely on to keep you cool, while also helping you achieve the energy-efficiency tax credit requirements.

The XB16 includes:

Climatuff® Compressor

All-aluminum Spine FinT Outdoor Coil

Upgraded fan motor

Full-Side louvered panels protect your investment

Corrosion-resistant WeatherguardT fasteners

Unique DuraTuffT non-corrosive base pan

Quick-Session cabinet with full coil protection

XB13 Air Conditioner

Standard efficiency, just the right kind of cool

Step out of the heat and enter the comfort of cool air that the XB13 provides to your home. This unit combines innovative components that give long-lasting, reliable performance. And because the XB13 meets federal regulations for SEER, it's also a cost-effective and smart way to relax and stay cool.

The XB13 includes:

Climatuff® Compressor

Spine FinT Outdoor Coil

Full-Side louvered panels protect your investment

Baked-On Powder Paint Resists Rust

Noncorrosive Duratuff® Base Pan

Corrosion-Resistant Fasteners
