

XC95m Gas Heating Furnaces

Communicating technology in a fully modulating furnace for the ultimate comfort and greater efficiency

Advanced ComfortLink II communications technology allows the XC95m to configure itself for optimal performance year after year. Add the Telephone Access Module (TAM) to get alerts sent to your phone, and even adjust your settings remotely, whenever you like. With its fully modulating capability, you can achieve up to a 95% AFUE (annual fuel utilization efficiency).

The XC95m includes:

ComfortLink II Communicating Capability

Communicating User Interface

Variable-speed blower motor

Fully modulating gas heat provides greater fuel efficiency and ultimate comfort control

Heavy gauge, two-tone powder-painted cabinet

Increased dehumidification with Comfort-R (™) mode

Durable adaptive silicon Nitride hot surface igniter

Multi-port, In-shot burners

One-piece aluminized steel primary heat exchanger

24-volt Fuse protects Controls

Insulated cabinet for quiet operation

Convertible to Horizontal left or right

AL29-4C Stainless Steel secondary Heat Exchanger

Cleanable filter with spring-loaded filter rack

ERV, Humidifier, and Air cleaner compatible

XC80 Gas Heating Furnaces

Communicating technology providing the ultimate comfort connection for efficiency, convenience and enhanced reliability

Advanced ComfortLink II communications technology allows the XC80 to configure itself for optimal performance year after year. Add the Telephone Access Module (TAM) to get alerts sent to your phone, and even adjust your settings remotely, whenever you like.

The XC80 includes:

ComfortLink II Communicating Capability

Communicating User Interface

Variable-speed blower motor

Two-stage gas heat provides greater fuel efficiency and better comfort control

Heavy gauge, two-tone powder-painted cabinet

Increased dehumidification with Comfort-R (™) mode

Durable adaptive silicon Nitride hot surface igniter

Multi-port, In-shot burners

One-piece aluminized steel heat exchanger with no welds

24-volt Fuse protects Controls

Insulated cabinet for quiet operation

Convertible to Horizontal left or right

Cleanable filter with spring-loaded filter rack

ERV, Humidifier, and Air cleaner compatible
